VI. The conditions, if any, placed by the Board on disbursements from the E9-1-1 Fund.

The Board has implemented policies and procedures for the PSAPs, WSPs, VoIPs and approved vendors seeking reimbursement from the E9-1-1 Fund. The Board requires the following for disbursements:

1. Be permitted under Hawaii State statute.
2. Have sufficient funds available for disbursement.
3. Be reviewed and approved by the Technical and/or Finance Committee subject to final approval by the Board.
4. Final approval by the E9-1-1 Board.
5. Approval for payment by the Board Chair, Finance Committee Chair and Executive Director. Signed approval from 2 of the three individuals mentioned.
6. A valid invoice or receipt of payment approved by the appropriate PSAP authorized official(s).
7. The disbursement check must be signed by 2 Board approved signatories.
8. All disbursements are subject to audit.

VII. The planned expenditures from the E9-1-1 Fund for FY2015.

VIII. The planned recipients of disbursements from the E9-1-1 Fund in FY2015.

IX. The amount of any unexpended funds carried forward for FY2015.

Cash Flow:	FY2014Actuals
Beginning Cash	\$ 9,347,748
Cash Receipts	9,102,309
Cash Disbursements	(5,945,859)
Ending Cash	12,504,198
Total Encumbrances Outstanding	(3,441,337)
Total Unencumbered Cash	\$ 9,062,861

The total amount of unexpended E9-1-1 Funds carried forward for FY2015 was \$12,504,198. However, unexpired encumbrances at the end of FY2014 amounted to \$3,441,337 which reduced the unencumbered cash amount to be carried forward to FY2015 totals \$9,062,861.

X. A cost study to guide the legislature towards necessary adjustments to the fund and the monthly surcharge.

A majority of the E9-1-1 strategic budget plan funding is necessary to modernize the current voice-based 9-1-1 systems' aging equipment and software in order to meet or exceed the PSAP public safety goals and the continuing training needs of the PSAPs to keep abreast of technological changes.

The State of Hawaii is part of the national movement to transition to Next Generation 9-1-1 system to significantly improve emergency response, saving lives and reducing property damage. NG9-1-1 enables the public to send texts, photos, videos, and other data to 9-1-1 centers just as the

public is able to communicate with each other today. Consequently the Board has chosen to conserve cash in anticipation of this cash outflow as a result of the transition to NG9-1-1. Due to the uncertainty associated with the transition to this new emergency response system and the increased revenue collections due to the enactment of Act 168(11), we continue to recommend the existing rate remain at the current level for the fiscal year.

XI. A status report of jurisdictional capabilities for enhanced 9-1-1 services, including public safety answering points and communications service providers.

All requirements of FCC Order 94-102 have been met by the Public Safety Answering Point (PSAPs), Wireless Service Providers (WSPs) and the Local Exchange Carrier (LEC). The State of Hawaii is currently Phase II capable throughout the state and each PSAP has the capability to make use of the data elements being transmitted by the WSPs and delivered by the LEC. All WSPs (AT&T, Mobi-PCS, Nextel, Sprint, T-Mobile, and Verizon) are providing Phase II services in all Counties and Jurisdictions and are only limited by coverage, RF interference, and terrain anomalies. The WSPs continue to expand their existing networks by adding additional sites in each of the jurisdictions at a steady pace. Some of the WSPs have tripled the number of communications sites and sectors on the Neighbor Islands within the State of Hawaii since the original deployment of the Phase II service. Advancements in technology in the wireless industry have also placed demands on the PSAPs by WSPs deploying new and improved networks that support broadband capabilities such as the wireless 3G, 4G, and LTE Wireless technology networks deployed by most of the WSPs.

The State of Hawaii Wireless 9-1-1 service has graduated from a wireless Phase II maintenance phase to Wireless Phase II expansion and New Wireless Technology implementation phase. This wireless expansion phase has opened the door for the PSAPs to start receiving New and Emerging Technology 9-1-1 services such as Voice over Internet Protocol (VoIP) and Telemetric emergency services. These new 9-1-1 services are already being delivered to one of the PSAPs and introduced to others within the State. The PSAPs have responded in an expeditious manner to keep pace with the demands for keeping pace with the New Technologies. As such, the primary activities being undertaken by the PSAPs have been concentrated on bringing all their 9-1-1 databases into i3 compliancy for the New Next Generation 9-1-1 service implementation. The PSAPs must perform these database synchronizations and GIS improvements in

order to improve location accuracy and to improve the dispatch of 9-1-1 resources efficiently and effectively.

The Wireless E9-1-1 Board is now the Enhanced 9-1-1 Board with the passage of HB 1000 and the Governor signing Act 168 (11) into law June 27, 2011. This established a single entity to administer enhanced 9-1-1 services for the State along with expanding board membership. The broadening of scope for the Enhanced 9-1-1 Board's responsibilities provides the leadership to improve and modernize the current 9-1-1 system improving emergency response, saving lives and reducing property damage. The E9-1-1 Board has undertaken the responsibilities associated with the investigation and recommendations of preparing the State of Hawaii Strategic Plan for the migration of the State of Hawaii's E9-1-1 resources into the futuristic New and Emerging Technology 9-1-1 services referred to as Next Generations 9-1-1 (NG 9-1-1).

XII. FY2014 Independent Audit Report Summary.

The E9-1-1 Fund has completed the transition from cash basis accounting to generally acceptable accounting principles (GAAP) or accrual basis accounting. In addition, the Enhanced 9-1-1 Board elected to undergo an annual independent CPA audit rather than a biennial audit as required by §138-7(b), HRS.

The next audit that will cover the period from July 1, 2013 through June 30, 2014 is scheduled for the 1st quarter of calendar year 2015.
